Terms & Conditions for HiFlight dealers

HiFlight R/C would like to thank you for taking the time to apply for dealer status with us. Placing an order with us indicates you agree to abide by the following terms and conditions.

DEALER ELIGIBILITY

To qualify as a HiFlight dealer, you be a retail outlet operating for a minimum of 40 hours per week and you must provide proof of your retail location. The only exception we will consider to these requirements are if you are remotely located. For purposes of eligibility, we consider a "remotely located" location to be more than two hours driving distance from any other HiFlight dealer or major centre.

PAYMENT

A 5% discount will automatically be applied to credit card or C.O.D. shipments at the ship of shipping.

OVERDUE ACCOUNTS

Regrettably, any account with a balance in arrears by 30 days or more will have access to all HiFlight Online and HiFlight Offline services suspended until the account is current. Any open accounts that has exceeded the available credit limit will also result in account suspension.

SHIPPING

All orders will be shipped by courier unless otherwise specified. If your shipment qualifies for free freight, we reserve the right to choose the courier service.

C.O.D.

All C.O.D. orders, regardless of the amount, will bear C.O.D. charges.

MINIMUM PURCHASE

We require a minimum first-time purchase of \$2500 for all new accounts that do not have any other existing major distributor accounts. (Namely, brand new stores.) After this first-time purchase, there is no minimum order size. Customers with existing accounts with other major distributors require no minimum order.

QUICK PAYMENT DISCOUNT

Invoices are clearly marked with both Quick Pay and regular dollar totals. To qualify for a Quick Pay discount, you must pay by credit card or payment must be post-marked within 10 days of the invoice date.

SALES & PROMOTIONS

We continuously offer our dealers special programs and sales promotions. Please inquire on how to become part of these programs and promotions.
